

**AEROMOB**

## TOWBAR WITH QUICK HITCH

**P/N:AM-FRK-66**

Alternative Part Number :  
C063-5 | C063-6  
MT980-1 | MT980-2

### DESCRIPTIVE \_\_\_\_\_

Fork for ONE PERSON auxiliary towing alone or tracted with quick hitch installation on Robinson R22, R44 and R66 helicopter, when on the ground. The FORKMOB 66 equipment has the function of connecting the tractor to the aircraft on the ground and enabling the movement of the landing helicopter.

### DIFFERENTIALS \_\_\_\_\_

- Quick coupling action;
- Skis higher off the ground together with the HELIMOB 66, enabling movement on terrain with some irregularity / large. Thus preventing groundless skidding and ski damage (consult us for more details);
- Double wheelset, allowing for lighter rolling and better impact dampening.
- Robust construction and high reliability;
- Lighter handling than traditional systems;
- Compact equipment.

### TECHNICAL SPECIFICATIONS \_\_\_\_\_

- Constructed in steel with Molybdenum alloy shafts for high load alloy, being compact and light;
- Hydraulic Jack with fitting and lock compatible with the helicopter hitch;
- Screws, pins and miscellaneous stainless steel;
- First line 60psi pneumatic type tires;
- Epoxy painting of high durability;
- Built to eliminate unnecessary twisting efforts;
- National product, with full assistance and availability of parts accordingly;
- Built in compliance with NBR8400, NBR10474 and NBR6171; ▪ All equipment with 1 Year Warranty;
- Equipment Registered® and trademarked by INPI - National Institute of Industrial Property and WIPO - World Intellectual Property Organization.

### INCLUDED ITEMS \_\_\_\_\_

- 1 Tugboat with hydraulic system and quick coupling and locking system on the aircraft.
